

Bid Proposals Fixes - Quick Reference

What Was Fixed

1. Markdown Syntax in PDFs

- **Before:** Raw `---`, `**`, `#` appearing as text
- **After:** Clean, professionally formatted text
- **How:** Comprehensive markdown stripping function

2. Clickable Table of Contents

- **Before:** Static text, no navigation
- **After:** Clickable links that jump to sections
- **How:** PDF annotations with internal links

3. Wonky Slides

- **Before:** Overlapping text, poor positioning
- **After:** Professional, consistent layouts
- **How:** Fixed calculations and positioning

Technical Changes

Files Modified:

- `lib/pdf-generator.ts` - Markdown stripping + clickable TOC
- `lib/slide-generator.ts` - Layout fixes + markdown stripping

Ready to Use

All improvements are automatic - no code changes needed to use the enhanced features!

Simply create or regenerate bid proposals as before, and enjoy:

- Clean PDFs without markdown artifacts
- Interactive TOC for easy navigation
- Professional slide decks with perfect layouts

Documentation

See `BID_PROPOSALS_COMPREHENSIVE_FIX.md` for full technical details.
