Page Builder - Quick Start Guide

Getting Started in 3 Minutes

Step 1: Access the Page Builder

1. Log in as admin (fooholness@gmail.com)
2. Go to **Dashboard → Page Builder** (in sidebar)
3. Click **"New Page"**

Step 2: Create Your First Page

1. **Enter Details:**
   - Page Title: "Our Services"
   - URL Slug: "services" (auto-generated)
   - Description: "Learn about our services"

2. **Click "Create Page"**

Step 3: Add Sections

1. **Add a Hero Section:**
   - Click "Hero Section" button
   - Fill in:

     ○ Headline: "Welcome to Our Services"
     ○ Subheading: "We help businesses grow"
     ○ CTA Text: "Get Started"
     ○ CTA Link: "/contact"
     ○ (Optional) Add background image URL

2. **Add a Features Section:**
   - Click "Features Grid" button
   - Set:

     ○ Title: "What We Offer"
     ○ Columns: 3
     ○ Add items:
     ○ Icon: 🚀 (emoji)
     ○ Title: "Fast Delivery"
     ○ Description: "Quick turnaround times"
     ○ Click "+ Add Item" for more features

3. **Add a CTA Section:**
   - Click "Call to Action" button
   - Fill in:

     ○ Headline: "Ready to Get Started?"
     ○ Button Text: "Contact Us"
     ○ Button Link: "/contact"

Step 4: Preview & Publish

1. Click the **"Preview"** tab to see your page
2. Click **"Save & Publish"** when ready
3. Your page is now live at: **/services**

Available Section Types

Content Sections

- **Hero** - Big header with CTA
- **Text** - Rich text content
- **Image** - Single image with caption
- **Video** - Embedded video

Marketing Sections

- **Features** - Grid of features/services
- **CTA** - Call to action banner
- **Pricing** - Pricing tables
- **Testimonials** - Customer reviews

Interactive Sections

- **Form** - Contact/lead forms
- **FAQ** - Question & answer
- **Team** - Team member profiles

Tips for Success

1. Keep It Simple

- Start with 3-5 sections
- Don't overcrowd the page
- Use whitespace effectively

2. Use High-Quality Images

- Use image URLs (upload to CDN first)
- Recommended size: 1920x1080 for heroes
- Always add descriptive alt text

3. SEO Best Practices

- Fill in meta title & description
- Use descriptive page slugs
- Add relevant keywords

4. Test Before Publishing

- Always preview your page
- Check on mobile (use browser tools)

• Test all links and buttons

5. Organize Sections

- Use up/down arrows to reorder
- Put most important content first
- End with a CTA

Common Use Cases

Landing Page

1. Hero Section (with strong value prop)
2. Features Section (3-4 key benefits)
3. Testimonials Section
4. CTA Section (sign up/contact)

About Page

1. Hero Section (company intro)
2. Text Section (our story)
3. Team Section (meet the team)
4. CTA Section (join us)

Service Page

1. Hero Section (service overview)
2. Features Section (what's included)
3. Pricing Section (plans)
4. FAQ Section
5. CTA Section (get started)

Troubleshooting

Page not showing up?

- Check status is "Published" (not "Draft")
- Verify slug doesn't conflict with existing routes
- Clear your browser cache

Images not loading?

- Verify image URL is accessible
- Use HTTPS URLs only
- Check image file size (< 1MB recommended)

Sections not saving?

- Check you clicked "Save & Publish"
- Verify you have admin access
- Check browser console for errors
